WRITTEN TESTIMONY March 11, 2015 Planning and Development Committee

Raised Bill No. 6966 An Act Concerning Municipal Newspaper Postings

Good afternoon Senator Osten, Representative Miller, Senator Linares and Representative Aman and other distinguished members of the Planning & Development Committee. The Connecticut Town Clerks Association would like to convey its support of the above referenced bill.

Our Association has supported similar legislation in the past, particularly since it would represent a cost savings for the municipalities. Today's technology allows our residents to have better access and more information available than ever before through our websites.

We thank the Committee for raising this bill that would save taxpayer dollars, while still providing the public with opportunity of notification in a timely manner.

Respectfully submitted,

Debra H Denette, East Haddam Town Clerk
Vice-Chair, CTCA Legislative Committee
